REASONS FOR ALLOWANCE

1. Claims 1-5 and 8-21 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-5 are allowable because none of the prior art discloses a coaxial adapter comprising: a ground sleeve having a second ground sleeve end adapted to contact a ground probe of a test probe; a signal pin having a second signal pin end adapted to contact a signal probe of a test probe; and a ratio of a first inner radius of the signal pin to the first outer radius of the ground sleeve is the same as the ratio of a second inner radius of the signal pin to a second outer radius of the ground sleeve, and in the combination as claimed.

Claims 18-21 are allowable because none of the prior art discloses a coaxial adapter comprising: an internally tapered ground sleeve having a second ground sleeve end adapted to contact a ground probe of a test probe; an externally tapered signal pin having a second signal pin end adapted to contact a signal probe of a test probe; and a ratio of a radius of the ground sleeve to a radius of the signal pin is maintained constant over a length of the coaxial adapter, and in the combination as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
